WANT RETIREMENT LAW.

Civil Service Employees to Urge Measure at Conventions.

A representative committee of civil service employees will appear at the Chicago and St. Louis conventions in the interest of the great body of civil service workers throughout the country, to urge the enactment of a law which will incorporate a civil service plank in their platform. A special effort will be made to obtain a declaration from both parties favoring the speedy enactment of a retirement law. President Wilson and the Civil Service Commission have granted authority to the United States Civil Service Retirement Association to appoint a committee to co-operate with others in this work, and also allowing the retirement association to solicit and receive voluntary contributions to cover the cost of the work.

DEWEY WAITING FOR FIGHT DATA

North Sea Engagement Demonstrates Value of More Heavy Battleships.

George Dewey, admiral of the navy and president of the General Board, is keenly interested in the news of the German and British clash in the North Sea. He was at his office early this morning, awaiting additional details which may have a far-reaching effect on the modern naval policy of all the powers.

"There are indications that the battle cruisers were unable to give and take like the battleships that opposed them and suffered heavily because of their comparatively thin armor. This is, of course, based on the assumption that the battle cruisers were sunk by gunfire.

"Torpedo boat destroyers appear to have operated in the day time as well as at night, which is a departure from the tactics employed by these vessels. In the past, these destroyers or 'night hawks' have generally relied upon the cover of darkness to carry on their work.

To Profit by Encounter.

"We will, of course, endeavor to profit by every lesson that can be conveyed to the United States navy by the North Sea fight. There is no secret that we still hope to see two battleships in the navy bill.

The battleship always has been the main bulwark of our naval strength. I hear the opinion already expressed that the North Sea fight demonstrates this. It is recalled that the battle-cruiser Lion in the North Sea fight some time ago, had to go out of action after she began to be hit. She had great hitting power and great speed but comparatively little resisting power.

"I am eagerly awaiting detailed information which will show what sunk the British cruisers, how the opposing fleets were made up and so on. We have no battle-cruisers and I think a squadron of these vessels would be a welcome addition to the navy but I hope to see battleships provided for at the same time. Two battleships and four battle-cruisers would, I believe, be vastly superior to five or even six battle-cruisers."

PROFITS TO BE SHARED.

Palais Royal Is Holding United Merchandise Sale Tomorrow.

Tomorrow is to be profit-sharing day at the Palais Royal. This unique idea of modern merchandising has come to be looked upon by the people of Washington as one of the great events of the year. The whole idea is that of co-operation between the manufacturer or importer, the jobber and the store in an endeavor to give the patrons of the store the utmost in value.

Manufacturers and importers have joined in the spirit of this big movement by sending huge shipments of goods for every department of the store at complimentary prices. The store has contributed its share in the elimination of profits. Both are acting upon the principle that it pays to invest in the good will of the public.

WEATHER CONDITIONS.

District of Columbia, Maryland, and Virginia—Fair Sunday and probably Monday; light westerly winds.

The Lake storm has moved eastward, but with diminishing intensity, and Saturday night it covered the North Atlantic States. Within the last twenty-four hours this disturbance caused showers and thunderstorms in the Atlantic States, Tennessee, the Ohio Valley and the lower Lake region, and it has been followed by cooler weather in the interior of the Atlantic States, the lower Lake region, and the Ohio Valley and Tennessee. Light showers have also fallen in Wisconsin, Minnesota, and Kansas.

Temperatures have risen generally west of the Mississippi River, except in the Northern Plains States and the Southwest.

The indications are that the weather will be generally fair without decided temperature changes Sunday and Monday in the States east of the Mississippi River.

The winds along the North Atlantic coast will be fresh west with fair weather; on the middle Atlantic coast, moderate west with fair weather; on the south Atlantic and Gulf coasts, light to moderate variable with fair weather; on the Great Lakes, moderate west.

Urges Members' Reappointment.

Resolutions urging the reappointment of H. P. Blair, Dr. C. W. Childs and Mrs. Edith Kinnaman, Kappa members of the Board of Education, whose terms expire June 30, were adopted yesterday by public school custodians. The resolutions praise the three members for their "thorough, commendable and efficient manner" of handling school problems.

CLUBMEN BATTLE ON WET DIAMOND

Press Sluggers Defeat Metropolitan-Chevy Chase Team, 11 to 8.

Four additional bathrooms in the "Free Ward" of the Providence Hospital, was the principal incentive of a hotly contested seven-inning baseball game yesterday between a team of the National Press Club and joint teams from the Metropolitan and Chevy Chase clubs, at American League Park. Through superiority in batting, the Press Club won, 11 to 8.

Though it is said that several thousand tickets were sold for the game, Jupiter Pluvius got mad, had the blues or something about 3 o'clock, and his copious tears put an effective stopper on the attendance and almost on the game. Only a scant hundred or more fair "fanatics" and an equal number of fans gathered to cheer their respective champions.

Through the illness of Maj. Raymond Pullman, William Payne Meredith was made arbiter on the bases and J. H. DeSibour judge of balls and strikes. There were no casualties, the players confining to verbal assault their differences of opinion on the decisions.

King and Pilsen Stars.

The feature of the game was the batting of King, of the Press Club, and Pilsen, of the Metropolitan-Chevy Chase, each getting two two-base hits. Fuller, for the Metropolitan-Chevy Chase team, faced the pitcher four times and each time was given a base on balls. Zachary and Marrinan, of the Press Club, landed for a two-bagger each.

Winning the toss-up for choice, Capt. Lamb, of the Press, took the field first. Fuller, for M. & C. C., was given a base on balls and when King momentarily got the game in watching the fair audience, he went to third, the ball thrown by the pitcher shooting by King at first to the grand stand. Fuller scored

PERSHING LAUDS INDIAN SCOUTS

Praises Apaches for Routing Band of Villistas Near Bachineva.

Warm praise for the work of the Indian scouts with the American expedition in Mexico was contained in a dispatch to the War Department yesterday from Brig. Gen. Pershing, confirming the rout of a band of Villistas by twenty Apache scouts near Bachineva.

The report stated that the Indians, under command of Lieut. James A. Shannon, of the Eleventh Cavalry, picked up the trail of a small band of Villistas and in a spirited brush with the Mexican bandits, put the latter to flight, killing one and wounding another, and capturing three rifles and three horses, one of the latter being a mount belonging to the Fifth Cavalry.

Pershing also reported that Capt. Turner, of the Thirteenth Cavalry, had unearthed another bandit cache in which were discovered ninety-four rifles. This find makes a total of 500 rifles and ten machine guns belonging to the Villistas which Pershing's forces have captured in this way. Secretary of War Baker declared yesterday afternoon that it has not been determined what will be done with the ammunition and other booty taken from the bandits in Mexico.

The Secretary had a long conference this afternoon on the Mexican situation with President Wilson, having shortly before received from Gen. Pershing, through Maj. Gen. Funston, a lengthy report on the conference which the latter held with Gen. Gabriel Gayra, commander of the Carranza forces in northern Chihuahua, at Colonia Dublan. Except to state that the conference was "entirely amicable," Secretary Baker refused to disclose the contents of the report.

Struck by a speeding train, D. Millard Kite, of 1761 Columbia road, was instantly killed at Nokesville, Va., forty-six miles below Washington, yesterday.

Mr. Kite, employed as a traveling salesman by a Baltimore drug firm, was at the Nokesville Station waiting for a Southern train to take him home. His train followed the death-dealing Florida special which killed him. Misjudging the distance of the flyer, he started to cross the tracks in front of the station.

The half-dozen passengers and loungers in the little depot saw him falter and attempt to turn back as the train bore down on him. The brakes grinding as Engineer J. J. Goodwin attempted to halt the special, they saw him struck and his body tossed fifty feet. Life was extinct when Engineer Goodwin, Fireman Mason Marshall and passengers ran back. The accident happened about 1 o'clock. Kite's wife and three daughters were notified at 5 o'clock. The body was taken to Alexandria.
